ABOUT US

PROFIRE SECURITY SYSTEMS, established in the year of 2018, is one of the leading Indian based company specializing in the fields of fire, safety & high-end security systems.

We provide basic design to end to end solution for Fire Alarm Systems, CCTV & Access Control Systems, PA Systems, Linear Heat Sensing Systems, Flame Detectors, GPS Tracking System, Solar Brick Light , Portable Gas Detector Fire Extinguishers & Home Solutions (Intrusion, Home Automation Video Door Phones, Bells, Biometric Locks) Boom Barriers, Turnstile, Flap Barriers.

We have achieved phenomenal growth and today we are one of the fastest emerging fire safety providers for major contractors, consultants, architects, IT companies and other large and small scale industries.

PROFIRE SECURITY SYSTEMS is inherited with trust, quality, commitment and workmanship.

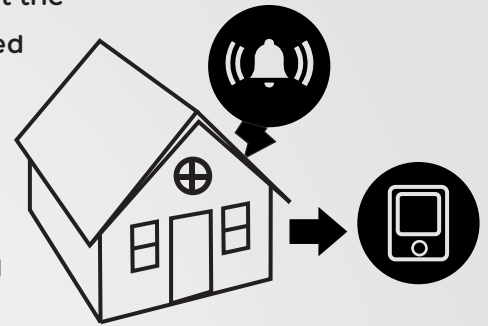

QUALITY ASSURANCE

At **PROFIRE** SECURITY SYSTEMS, we don't just sell you a solution. We ensure that it fulfils your requirement and holds up to our commitment of quality.

We undertake stringent quality control measures and guarantee that the products you buy from us are defect free. A dedicated team of trained professionals is just a phone call away for the maintenance or in the eventuality of any emergency.

We believe that our job actually begins after we sell you the solution you need. Our team of repair and maintenance technicians is geared up to respond to your call anytime, anywhere.

PROFIRE SECURITY SYSTEMS supplies quality products approved/ listed by Factory Mutual (FM), Underwriters Laboratories (UL), ULC, VDS, etc.

OUR OWN BRANDS :

BRANDS WE ARE ASSOCIATED WITH :

ENTRANCE CONTROL SYSTEM

CCTV

ACCESS

HOME SOLUTIONS

PAVA

FIRE

EXIT SIGNAGE SYSTEM

SECURITY SYSTEM

CCTV SURVEILLANCE

A CCTV Camera is of course first and foremost security measures. Remote access to your CCTV System via the internet on your smartphone (iPhone/Android)

ACCESS SYSTEM

It is the process whereby movement in and out of a building is controlled through specific doors, elevators and even gates for specific people at specific times

TIME ATTENDANCE

It uses card, finger and face recognition system to verify person's identity and record its time-in and time-out with all required reports eg. late coming and going.

INTRUSION SYSTEM

It is designed to detect intrusion, unauthorised entry into a building or area for protection against theft or property damage and personal protection against intruder.

MY HERO - DISTRESS COMPANION - SOS TRACKER

A CCTV Camera is of course first and foremost security measures. Remote access to your CCTV System via the internet on your smartphone (iPhone/Android)

GPS TRACKING

This navigation device normally carried by a moving vehicle or person or animal uses the global positioning system (GPS) to track the device movements and determine.

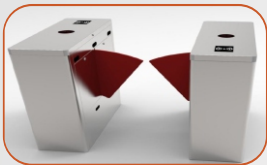

ENTRANCE CONTROL

BOOM BARRIERS – ELECTRIC

It is a bar or pole pivoted to allow the boom to control vehicular access. Any kinds of access control units can be integrated (i.e long range reader / biometric reader etc.)

FLAP BARRIERS

The compact pedestrian Flap Barrier is designed to control pedestrians entering or existing restricted areas usually under high pedestrian traffic flow.

SWING BARRIERS

When a valid card is swiped, the electric flaps open and allow a single authorized access

METAL DOOR DETECTOR

A Metal Detector is a device that will help you to find various types of metal that may be carried by human beings or buried in dirt, sand, grass and even water.

BAGGAGE SCANNER

It is a X-ray baggage inspection system which provides an effective inspection on mail, hand-held baggage, luggage and other items.

ANTI THEFT SYSTEM

Anti-theft system is any device or method used to prevent or detect the unauthorized appropriation of items considered valuable.

BOLLARDS – AUTOMATIC

These are metal cylinder, with ultra-high resistance to impact & weather, ideally used where utmost safety and efficiency is required to restrict mainly vehicle entries

TRIPOD TURNSTILE-WAIST HEIGHT

The 3 arms can rotate in one or two directions, controlled by an access control system or push button at a reception desk.

TURNSTILE- FULL HEIGHT

FH Turnstile is used as same as WH Turnstile but with higher security i.e stops malfunction, jumping over the turnstile etc.

HOME / OFFICE SOLUTIONS
